 ● GRESB Universe    + Asia    x Europe    \* Americas    x Oceania  
 # Globally diversified    x Entities with only one component submitted

## ESG Breakdown

## Trend

### Note:

**GRESB advises against the direct comparison between 2024 GRESB Scores and prior year results.** The new Standard provides a more rigorous assessment of sustainability practices, new asset-level benchmarks, and enhanced alignment with emerging investor priorities. These benefits come at the cost of comparability, and investors are encouraged to carefully evaluate changes driven by the evolution of the Standard, assessment methodology, and participant actions.

Relative comparisons are among the best indicators of performance, and they provide investors and other data users with clear and relevant information to better contextualize a score, given the evolving methodology. Investors are encouraged to use rankings to understand the relative position of companies among their peers.

For more detailed information about this year's changes and their impact, [please click here](#).
